Triggering shitlibs and cucks to an absurd degree and serving a reader base of millions, The Daily Stormer is the biggest pro-white publication in the history of the world. It's humbling to think about the sheer scale that we serve every day-- roughly the same amount daily as the entire circulation of Der Stürmer had in an entire month at the height of National Socialist power.

daily newspaper, and we do so on a fraction of the resources of any publication our size. Major metro daily newspapers don't have to mitigate some of the maddening problems which we've faced either, including random server shutdowns, getting our Internet routes jacked by Internet service providers that aren't even in the same country as the ones we host in, shutdowns from major payment processors, having law enforcement harass our families and business partners, and getting blacklisted from advertising revenues.

A publication at this scale requires thousands of dollars a month in basic expenses just to keep the lights on, and now we confront increasingly difficult issues like frivolous anti-speech lawsuits from Jewish legal activists. We need a consistent and predictable source of operations revenue. That's where you come in-- donate now and help sustain The Daily Stormer and let it continue propagandizing on its uniquely massive scale.
